**Item Code:** E-Luminator A19500

**Base Diameter:** 8"

**Power:** Rechargeable Batteries with AC adaptor  
Base may be used on a continuous basis while plugged into the charging adaptor

**Battery Life:** 8 hours per charge

**Output:** 13 Bright LED's

**Item Code:** Mini E-Luminator A19501

**Base Diameter:** 4"

**Power:** 3 AA Replaceable Batteries

**Battery Life:** 8 hours

**Output:** 9 Bright LED's

# E-Spotlyte

The 66 degree directional angle base allows the E-SpotLyte-20 to be aimed from any flat surface to the optimum area above that surface with precision. In conjunction with the directional angle base the LED lens further pivots to additionally focus the 20 bright white LEDs to that optimum desired area.
