

# E-Riser

Make your next Special Event SPECTACULAR with the E-Riser.  
Bring new dimensions into your floral arrangements and event lighting with the  
new 28" high rechargeable LED lighted E-Riser.

Perfect for adding exquisite coloured lighting detail  
to a wedding or party table arrangement.

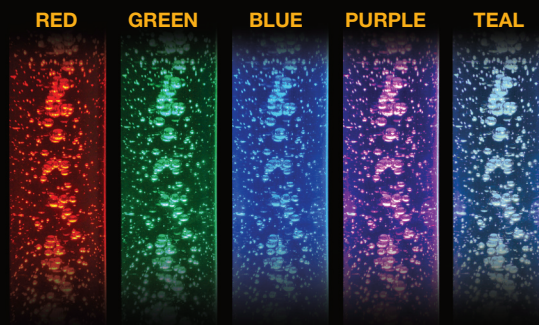

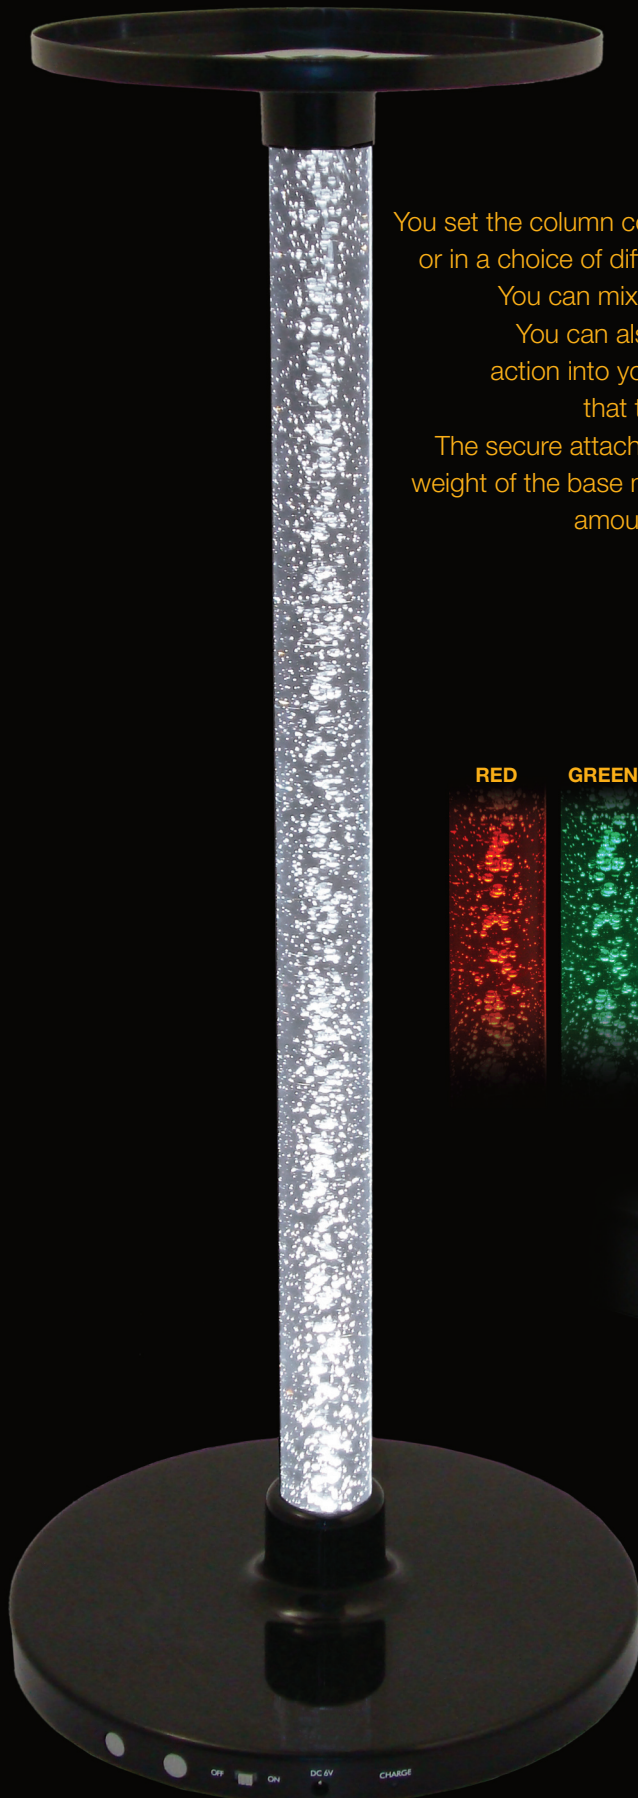

This clear, bubble-filled riser, outputs Bright White light,  
10 other colours, or cycles the RGB spectrum.

You set the column colour to your need. the column will illuminate in a white glow  
or in a choice of different solid colours (red, blue, green, pink, teal, and purple).

You can mix the white into the the solid colours for a more pastel effect.

You can also choose the rotating RGB colour feature to bring a kinetic  
action into your display or event. 8 hours of continous operation assures  
that this appliance will function for the entire length of any event.

The secure attachment of the column to the base and to the top pan and the  
weight of the base makes this assembly very stable and sturdy for a impressive  
amount of loading and assures your designs need not be limited.
